MILK THISTLE COMPLEX - 90 CP

Price: $19.50

NUTRITIONAL FUNCTIONS

Milk Thistle protects and regenerates the liver in most liver diseases such as cirrhosis (hardening of the liver), jaundice and hepatitis, (inflammation of the liver), and cholangitis (inflammation of bile ducts resulting in decreased bile flow). It is one of the best examples of preventative medicine that we have today as it not only protects each cell of the liver from incoming toxins, but simultaneously encourages the liver to cleanse itself of damaging substances, such as alcohol, drugs, medications, mercury and heavy metals, pesticides, anesthesia, and even the most poisonous of mushrooms, the amanita or death-cap mushroom. This herb is wonderful and appropriate for anyone who is under stress, uses alcohol, recreational drugs, prescription medications, or lives in todays modern times of pesticides, environmental toxins, and pollution.

Beet juice is a blood cleanser and purifier and detoxifies the liver.

Cascara Sagrada is used for constipation, liver conditions, hemorrhoids, chronic indigestion, cirrhosis, jaundice, foul breath, and gastric headaches.

Dandelion is a liver and urinary tract cleanser for bacteria, a laxative, stimulant, stomachic, tonic, and diuretic.

Uva Ursi is important for blood and bladder health.

Thiamine is important for appetite and digestion, energy stimuli of neural tissue, and working with the other ingredients of this complex.

Riboflavin is helpful for poor digestion, capillary congestions, and contributes energy to this complex.

Recommendations
As a dietary supplement, take two capsules three times per day following meals or as directed by your health care professional.

Supplement Facts

Serving Size: 1 Capsule
Servings Per Container: 90
